

One Minute Read

From your elected President of the Medical Staff

Joseph Love, M.D.

Colleagues,

As a community, we are all still reeling from the recent mass shooting at Michigan State University. In light of this tragedy, we wanted to remind you about the **Ulliance Employee Assistance Program** that we offer to our physicians and family members.

Our EAP is the most robust around and is available to your entire family including **college students**. The EAP is designed to provide confidential and professional counseling services to employees who may be experiencing personal or work-related problems. This program can help you cope with the aftermath of the event, which may include feelings of grief, trauma and stress.

We understand that your work can be emotionally taxing, and we want to support you in any way we can. The EAP can provide you with access to licensed counselors who can help you process your emotions and provide you with the tools and resources you need to cope with the situation. Additionally, the program also offers childcare, eldercare resources and wellness resources that you may find helpful.

We know that healing is a process that takes time, and we want you to know that you are not alone. We encourage you to take advantage of the resources available to you, and Ulliance as well as your physician colleagues are here to support you every step of the way. Our thoughts are with the MSU community.

Please see this [brochure from Alliance](#).

Sincerely,

Joseph Love, M.D.
