

Beaumont Physician Partners

Engaging and supporting Beaumont doctors

Your physician weekly bulletin

I'm always delighted to see Beaumont featured in the news for the strong services we offer Southeast Michigan. Here's key news and information that may be of interest:

- U.S. News & World Report ranks five Beaumont hospitals in top 10 in metro Detroit
- Cancer guide features Beaumont's world-class technology and clinicians
- Muse application upgrade and downtime coming Aug. 27-28
- CME credits and options keep you current
- Beaumont marketing campaigns continue

I'm proud to share Beaumont's Royal Oak and Troy hospitals have earned the 2018-2019 [U.S. News & World Report 'Best Hospitals' national ranking](#). This marks the 24th consecutive year Royal Oak has been included in this U.S. News national listing, and it also ranks No. 2 in metro Detroit and statewide. Beaumont, Troy is ranked

No. 3 in metro Detroit and statewide. And five Beaumont Health hospitals, including Royal Oak and Troy, also received "high performing" national ratings for common adult procedures and conditions. We have much to offer our communities to keep healthy. Congratulations to you and your teams!

In case you missed it, this weekend's Detroit Free Press included a 2018 [Cancer Guide](#) about diagnostic tools, treatments and patient stories. The guide features several Beaumont doctors including Craig Stephens, M.D.; Maha Saada Jawad, M.D. and Kate Gowans, M.D., to name a few. You will find articles on Beaumont's Proton Therapy Center, Lung Nodule Clinic and Pediatric Oncology. This insert reinforces that Beaumont has innovative programs and leaders that likely contributed to that U.S. News national ranking. From the IT department, at 9 p.m. on Monday, Aug. 27, the **Muse EKG application** will be down for upgrades until 5 a.m. on Tuesday, Aug. 28. There will be no changes to current workflows. The Muse application and Muse link will not be available to techs and reading physicians at any Beaumont hospital locations during this time. EKG carts will be available. The Muse desktop icon will change and be available through **Beaumont Health Apps**. If you have questions, please contact the Service Desk at 888-481-2448.

The [myBeaumontChart Paperless Billing](#) went into operation Aug. 21 and patients can now choose to **receive paperless bills**. They can also elect to receive an email alert whenever a new statement is available. Please let your patients know that this environmentally-friendly option is available.

Good news. There have been quite a few **IT communications** lately (as you can see above). Now you can visit a new page on the Beaumont internet for [IT updates](#) on projects including [MFA](#), Muse and [myBeaumontChart Paperless Billing](#). At any time, go to intranet.beaumont.org and search under the News tab for IT News & Updates to see upcoming IT changes and downtimes. Check it out.

On the education front, please review your **CME** credit reports regularly as we're seeing an uptick in the number of physician audits by the Michigan Board of Medicine. View the CE requirements for [Michigan Medical Doctors](#) or the CE requirements for [Michigan Osteopathic Physicians](#). To access your [Beaumont CME credit report](#), click Sign In and then My CME or use the free mobile CloudCME app available via the [App store \(iPhone\)](#) or [Google Play \(Android\)](#). The organization code is beaumont.

Also, a new CME online module is available as part of a OUWB medical student research project designed to raise awareness about the challenges providers may face when treating [high functioning young adult patients with Autism Spectrum Disorder](#). Participation is voluntary, should take approximately 40 minutes and includes a pre- and post-test. Participants can earn 0.5 CME credits after completing the module and receiving at least a 70 percent on the post-test questions.

Our Marketing Department is working diligently to increase awareness of Beaumont services and **provide cross-referral opportunities**. I mentioned before that this month's Marketing focus is on Primary Care and I hope you have taken the opportunity to update your 'Find a Doctor' [physician profile](#). A [weight management campaign](#) is planned for the month of September featuring our weight loss centers and a [heart and vascular campaign](#) begins in September and runs through December. Your physician profile is key to receiving more referrals through the Beaumont physician referral service.

Enjoy these last days before school and fall activities ramp up.

Sincerely,

David P. Walters, D.O., MHSA
Senior Vice President, Beaumont Physician Partners

P.S. **Epic Single Instance Implementation** is a couple weeks away, scheduled for 4 a.m. Sept 9. Here are two important safety-related changes for inpatient providers at **Dearborn, Taylor, Trenton and Wayne** as this change goes live.

1. Only one patient chart will be able to be open at one time in Epic, to reduce wrong patient error regarding documentation and ordering.
2. Your pending or incomplete notes will be visible to other Epic users prior to being signed, to decrease clinical information not being available during transitions of care.

And **key information for all inpatient providers** is available in the links below. I strongly encourage you to review this educational information so you are well prepared.

OB Stork Provider
