Set up Beaumont Health email on Android (shown on Galaxy S8)

NOTE: If connected to Beaumont Wi-Fi, please disable your wireless on phone prior to following the instructions below.

Before you start:
Make sure you have the following information:
1. Your email address
2. Password
3. Username
4. Make sure to set up a security PIN on your device prior to setup.
5. Exchange internet server name: mail.beaumont.org

1. Swipe up from your home screen. Select Samsung then Email.

2. Enter your email address and password, select MANUAL SETUP

3. Select Microsoft Exchange ActiveSync

4. Enter Username and Exchange server address.

5. Select OK

Select ACTIVATE, and your account is ready to use.
