ARTICLE II – MEDICAL STAFF MEMBERSHIP

2.1 Nature of Membership

Membership on the Medical Staff is a privilege which shall be extended only to professionally competent Practitioners who continuously meet the qualifications, standards and requirements set forth in these Bylaws, the Rules, and Medical Staff Policy.

2.2 Qualifications for Membership

2.2.1 Basic Qualifications. Only Practitioners who can document their character, health, experience, training, demonstrated current professional competence, judgment, adherence to the ethics of their profession, and ability to work cooperatively with others, such that the Medical Staff and the Board are assured that they will furnish quality care in a manner that promotes a safe, cooperative and professional health care environment, shall be eligible for Medical Staff membership. No Practitioner shall be entitled to Medical Staff membership or to particular Clinical Privileges merely by virtue of being licensed to practice in this or any other state, or being a member of any professional organization, or holding or having held such privileges at another hospital.

2.2.2. Non-discrimination. All applicants shall be equally considered for Medical Staff membership regardless of race, color, sex, national origin, religion, age or any other basis prohibited by law.

2.2.3 Initial Board Certification. All Physicians, Podiatrists and Oral Surgeons must be board certified by a Hospital-recognized board for the specialty and/or subspecialty that they practice, as specified in Medical Staff Policy. All recent graduates must have completed the entire residency or specialized training required for admission to the examination of such a certifying board and must achieve board certification within five years from initial eligibility as defined by the specialty board. Failure to obtain board certification within the prescribed time will cause the Member to be ineligible for reappointment.

2.2.4 Recertification Once board certified, all Physicians, Podiatrists and Oral Surgeons must maintain board certification in accordance with Medical Staff Policy. Those with time-limited certification must achieve recertification in their primary specialty and/or subspecialty within two years after the expiration date of their current certification, unless an extension is granted under extenuating circumstances pursuant to Medical Staff Policy.

2.2.5 Insurance. All Members with Clinical Privileges must maintain and provide evidence of professional liability insurance in an amount defined by the Board, and consistent with Medical Staff Policy.

2.2.6 Residents and Fellows. Residents and fellows (referred to collectively as “residents”) are not eligible for Medical Staff membership or Clinical Privileges while functioning within the scope of their medical education training program at the Hospital. Instead, they function clinically in accordance with the written training policies established by the Graduate Medical Education Committee, in conjunction with the residency training program, which delineate the roles, responsibilities and patient care activities of residents, including the ability to write patient orders, and requirements for supervising Physician documentation. The policies must also describe the mechanisms for deciding a resident’s advancement and the level of the resident’s independence in delivering patient care. Residents may provide patient

care only under the supervision of a Member with the appropriate credentials, in accordance with applicable Medical Staff and Hospital Policy. When appropriate, the Chief of Staff may appoint resident(s) to serve as non-voting member(s) of Medical Staff committees.

2.2.7 Notice of Status Changes. Applicants and Members shall notify the Chief of Staff in writing within ten business days if any of the following occurs and, upon request, shall provide additional information regarding the matter requested by the Chief of Staff:

2.2.7.5 involuntary exclusion from a federal health care program.

2.2.8 Hospital Employees. Any Practitioner appointed or employed by the Hospital to provide direct patient care in the Hospital must apply for Medical Staff membership and be accepted before such appointment or employment is binding. Upon termination of such Practitioner's appointment or employment by the Hospital, the Practitioner remains a Member subject to the same Rules, Regulations, and Bylaws as any other Member, provided this principle does not apply to Practitioners who furnish services pursuant to an exclusive contract described in Section 2.7 or are employed in a hospital-based specialty.

2.3 Application for Appointment

2.3.1 Application Form. All applications for appointment to the Medical Staff shall set forth the applicant's professional qualifications, provide professional references (including peer references), designate the Clinical Privileges desired, provide the applicant's certification regarding his health status, and provide information regarding malpractice experience. If required by Medical Staff Policy, the applicant shall submit a clinical practice plan that addresses the criteria defined in Medical Staff Policy.

2.3.2 Effect of Application. All Members and applicants agree that submission of an application (whether for initial appointment or reappointment) constitutes the following:

2.3.2.6 The Practitioner's release of the Medical Staff, the Hospital, and their agents and representatives from liability for any communication made or any action taken without malice in connection with this or any other application or proceeding concerning his appointment or Privileges; this waiver extends to third parties that furnish information regarding the Practitioner to the Hospital, Medical Staff or their representatives.

2.3.2.7 The Practitioner's release of the Medical Staff, the Hospital, and their agents and representatives from all liability for communicating relevant information regarding the Practitioner, including information regarding adverse action regarding his appointment or Privileges, to any other hospital or health facility or licensing board to which the Practitioner may apply for privileges or licensure.

2.3.2.8 The Practitioner's agreement to submit to an evaluation of his physical and/or mental health if requested by the Credentials Committee, MEC, or the Board based on a determination there is reason to question the Practitioner's health status; the evaluation will be conducted by a physician designated by the requesting body consistent with Medical Staff Policy. Such an evaluation may be a prerequisite to maintaining current appointment or Privileges or to further consideration of an application for appointment, reappointment, or Privileges.

2.3.2.9 The Practitioner's agreement to comply with the requirement that a physical examination and medical history be completed and documented for each patient, no more than thirty (30) days before or twenty-four (24) hours after an admission or registration but before surgery or a procedure requiring anesthesia, by an individual who holds Privileges to perform histories and physicals. If the history and physical were performed before admission or registration, an updated examination of the patient must be completed and documented within twenty-four (24) hours after admission or registration but before surgery or a procedure requiring anesthesia, by an individual who holds Privileges to perform histories and physicals. Additional requirements regarding histories and physicals are contained in the Rules.

2.4 Procedure for Appointment

2.4.1 Credentials Verification. Application for appointment to the Medical Staff shall be presented in writing to the Medical Staff Office on a form prescribed by the Board. An application for appointment is complete when all items specified in Medical Staff Policy have been received. After the Medical Staff Office has verified the applicant's credentials and identity and obtained letters of recommendation and a National Practitioner Data Bank report, a complete application shall be referred to the Credentials Committee and to the Chief of the department in which the applicant is seeking Privileges. As a general rule, complete applications shall be acted on by the MEC and the Board, as described below, within 120 days after the date the application becomes complete.

2.4.2 Applicant's Responsibilities. The applicant is responsible for producing adequate information for a proper evaluation of his qualifications and for resolving any doubts about these qualifications.

2.4.3 Interview. The applicant shall be interviewed by the Chief of the applicable department, who shall submit a written report and recommendation (as defined in Section 2.4.6 below) to the Credentials Committee.

2.4.4. Credentials Committee Action. The Credentials Committee shall review the applicant's qualifications and office location. The Credentials Committee may also interview the applicant. The Credentials Committee shall submit its written report and recommendation, along with the Department Chief's report and recommendation, to the MEC.

2.4.5. MEC Action. Upon receipt of the report of the Credentials Committee, the MEC shall review the reports of the Credentials Committee and Department Chief and other relevant information. The MEC shall submit its written report and recommendation to the Board. If the MEC disagrees with the recommendation of the Credentials Committee, it shall also deliver to the Board a copy of the reports and recommendations of the Credentials Committee and the Department Chief. In addition to all other factors considered by the MEC, it shall consider the availability at the Hospital of adequate facilities and resources to support each Privilege requested by the applicant and may consider the need for additional Members with the skills and training of the applicant.

2.4.6 Reports and Recommendations. As used in this Article, "written report and recommendation" means written recommendations regarding Medical Staff appointment and, if appointment is

recommended, Staff category, Privileges to be granted, and any special conditions to be attached to the appointment, with the reasons for any unfavorable recommendation stated in writing.

2.4.7 Board Action. The Board has final authority for all appointments and for granting Privileges. Privileges are determined in accordance with Article III. The Board shall either (1) adopt the recommendation of the MEC, or (2) refer it back to the MEC for further consideration with a statement of the reason(s) for such action. If an application is referred back, the MEC shall again make a written report and recommendation to the Board, which shall adopt or reject the recommendation for good cause.

2.4.8 Hearing and Appeal. If the MEC makes an adverse recommendation or the Board makes a preliminary adverse decision with respect to an application, the applicant may request hearing and appellate review to the extent available under Article VII and the Fair Hearing Plan. If an applicant who is the subject of an adverse preliminary decision does not make a timely request for a hearing or is not entitled to a hearing, the application is considered to have been withdrawn and shall not receive further consideration. If a decision is unfavorable with respect to scope of Privileges only, an applicant who either does not timely request a hearing or is not entitled to a hearing will be deemed to have requested only those Privileges the Board is willing to grant.

2.4.9 Omission/Misrepresentation. Any material omission or misrepresentation by an applicant in materials submitted in connection with his application may be grounds for immediate return of the application to the applicant by the MEC which shall be deemed a withdrawal of the application.

2.4.10 Reapplication. A Practitioner whose application for Medical Staff membership is denied shall not be eligible to reapply to the Medical Staff for a period of one year unless the Board specifies otherwise.

2.5 Terms of Appointment

All initial appointments and reappointments to the Medical Staff shall be for a period of up to two years.

2.6 Procedure for Reappointment

2.6.1 Reappointment Application. Each Member who desires reappointment to the Medical Staff shall submit a timely and complete reappointment application to the Medical Staff Office in accordance with Medical Staff Policy. If a timely and complete reappointment application is not submitted, the Member's Medical Staff Membership and Privileges will expire at the end of the current term of appointment. The reappointment application will require submission of information that will allow a determination of whether the Member meets the ongoing qualifications for Medical Staff membership and for requested Clinical Privileges, including providing reasonable evidence of current ability to perform requested Privileges and information concerning any changes in the Member's qualifications since his last (re)appointment. A Member who does not comply with the board certification requirements stated in Section 2.2.3 and 2.2.4, if applicable, is not eligible for reappointment.

2.6.2 Reappointment Criteria. The reappointment process will include evaluation of:

2.6.2.1 The Member's professional performance and judgment.

2.6.2.2 The Member's current clinical and technical skills and competence to perform the Privileges requested, as measured in part by the results of the Hospital's performance improvement activities (including the results of Ongoing Professional Practice Evaluation), and as assessed by the applicable Department Chief.

2.6.2.3 Professional ethics and conduct, including compliance with the Bylaws, Rules, Medical Staff Policies (including those relating to medical record documentation) and applicable Hospital policies, and ability to work cooperatively with others at the Hospital.

2.6.2.4 All information supplied in the Member's reappointment application.

2.6.3 Processing Reappointment Applications. Applications for reappointment shall be processed in the same manner as initial applications, using the procedures described in relevant portions of Section 2.4 of these Bylaws, except interviews of the applicant are not routinely required. The consequences of failure to complete or follow Bylaw requirements during the reapplication process shall be identical to the consequences of failure to complete or follow requirements during initial application for membership and Clinical Privileges. Reappointment shall be for a period of up to two years.

2.6.4 MEC Input Required. In no case shall the Board take action on an application for reappointment without first seeking the recommendation of the MEC with respect to the application.

2.6.5 Board Action. The Board shall take final action on applications for reappointment and renewal of Privileges, except that no final action may be taken with respect to any Member as to whom an adverse recommendation or decision has been made who has not either waived or completed the hearing and appellate review process provided for in Article VII, if applicable. The Member shall be bound by the terms of Section 2.3.2 in connection with all requests for reappointment.

2.7 Exclusive Contracts

2.7.1 Use of Exclusive Contracts. To improve patient care and promote more efficient Hospital operations, adequacy of coverage, maintenance of standards, more efficient use of facilities, and quality assurance, certain Hospital facilities and services may be used on an exclusive basis in accordance with contracts between the Hospital and Practitioners selected by the Medical Staff, Hospital and Board. Applications for appointment to the Medical Staff under Article II and for Clinical Privileges under Article III relating to those Hospital facilities and services will be accepted for processing only when the Practitioner is or will be employed or engaged by the Practitioners or entity that holds such exclusive rights to perform services under a contract with the Hospital.

2.7.2 Medical Staff Review. The MEC, acting on behalf of the Medical Staff, shall review and make recommendations to the Board regarding quality of care issues, including clinical service standards, related to exclusive arrangements for Practitioner services (including services of Limited Staff), prior to any decision being made, in the following situations:

2.7.2.1 the decision to execute an exclusive contract in a previously open department or service;

2.7.2.2 the decision to renew or modify an exclusive contract in a particular department or service;

2.7.2.3 the decision to terminate an exclusive contract in a particular department or service.

2.7.3 Privileges of Contracted Practitioners. A Member providing professional services under a contract with the Hospital shall not have Privileges terminated for reasons pertaining to the quality of care provided by the Member without the same rights of hearing and appeal as are available to other Members.

2.7.4 Effect of Exclusive Contract. Termination or denial of Privileges as a result of one of the decisions listed in, and reviewed in accordance with, Section 2.7.2 above shall not be subject to the procedural rights set forth in Article VII.

2.8 Leave of Absence

2.8.1 Leave Status. A Member in good standing may request a leave of absence from the Medical Staff for up to 36 months by submitting a written request to the Chief of Staff, stating the proposed duration and reason(s) for the leave. The MEC will recommend to the Board that the request be granted or denied, and the Board will take final action on the request. Conditions and/or limitations may be imposed on a leave of absence. All records for which the Member is responsible shall be timely completed. Members on leave of absence may not exercise Privileges, vote, hold office, or serve on committees, and will not be required to attend meetings or pay dues.

2.8.2 Reinstatement. At least 90 days prior to expiration of the leave of absence, or at any earlier time, the Member may request reinstatement of Privileges by submitting a written notice to that effect to the Chief of Staff. The Member shall also submit a written summary of the Member's relevant activities during the leave. If the leave of absence is related to illness, the Member shall submit a letter from the Member's attending Physician stating that the Member is physically and mentally able safely to resume full professional practice. A request for reinstatement shall be submitted and processed in the manner specified for reappointment to the Medical Staff. Failure to make a timely request for reinstatement or to provide a requested summary of activities or other requested information shall result in automatic non-disciplinary termination of Medical Staff membership; the Practitioner may later apply for Medical Staff membership and will be treated as a new applicant. A Member whose request for reinstatement from a leave of absence is denied by the Board shall be entitled to the hearing and appeal rights provided by Article VII.

2.8.3 Expiration of Appointment. If a Member's term of appointment will expire during a leave of absence, the Member may apply for reappointment during the leave in accordance with Section 2.6. The Board may condition reappointment on the Member submitting, at the time of requested reinstatement, acceptable evidence of the Member's ability to perform the Privileges granted or satisfying other specified requirements. Reappointment of a Member while on leave of absence does not guarantee that the Member's request for reinstatement from leave of absence will be granted. If a Member on leave of absence does not submit a timely application for reappointment, Medical Staff membership will expire; the Practitioner may later apply for Medical Staff membership and will be treated as a new applicant.

ARTICLE III – CLINICAL PRIVILEGES

3.1 Criteria for Determining Clinical Privileges

3.1.1 Privileges Are Required. Each Member shall exercise only those Clinical Privileges granted to him by the Board upon recommendation of the Credentials Committee and MEC, except as otherwise permitted by Section 3.4 through 3.6.

3.1.2 Criteria. Requests for Privileges shall be evaluated on the basis of the factors and categories of information listed in Sections 2.2 and 2.6.2. Requests for Clinical Privileges shall also be evaluated in light of observed clinical performance and judgment, current competence to exercise such Privileges, and the results of quality review evaluation and monitoring activities, including relevant Practitioner-specific data as compared to aggregate data and morbidity and mortality data, when available. Privilege determinations shall also take into account pertinent information concerning clinical performance obtained from other sources, especially from other institutions and health care settings where the

Practitioner has exercised clinical privileges. The Practitioner has the burden of establishing his qualifications and competency in the Clinical Privileges he requests, in accordance with Medical Staff Policy.

3.1.3 Dentists. The scope and extent of surgical Privileges to be granted to a Dentist (including an Oral Surgeon) shall be specifically delineated and granted in the same manner as all other surgical Privileges. An oral surgery patient may be admitted by an Oral Surgeon Member who has admitting Privileges. A Medical Staff Member or Limited Staff member who has history and physical Privileges shall perform the required history and physical exam of a dental or oral surgery patient. In all cases a Physician Member shall be responsible for the care of any medical problem that is present at the time of admission or that arises during hospitalization, and shall be identified in the medical record by the Oral Surgeon/Dentist at the time of admission.

3.1.4 Podiatrists. Podiatrist Members shall be assigned to the Department of Surgery. Podiatrists shall be limited to the diagnosis and treatment of diseases, injuries, defects and preventive care of the foot and ankle, as specified for each Podiatrist Member in his delineation of Privileges. A podiatric patient may be admitted by a Podiatrist Member who has admitting Privileges. A Medical Staff Member or Limited Staff member who has history and physical Privileges shall perform the required history and physical exam of a podiatric patient. In all cases a Physician Member shall be responsible for the care of any medical problem that is present at the time of admission or that arises during hospitalization, and shall be identified in the medical record by the Podiatrist at the time of admission.

3.1.5 Limited Staff. The scope and extent of Privileges to be granted to a member of the Limited Staff shall be specifically delineated and granted in accordance with Article V. Limited Staff may not be granted admitting Privileges. Limited Staff may participate in the care of patients admitted by a Member, including performance of histories and physicals, only in accordance with the scope of Privileges granted to the Limited Staff member.

3.2 Privilege Modification

A Member may request an increase in Privileges during the term of his appointment by submitting a written request in accordance with Medical Staff Policy. Any such request will be processed using substantially the same procedures as for a request for reappointment.

3.3 New Professional Practice Evaluation

Privileges granted to initial applicants and additional Privileges granted to a Member in connection with reappointment or a mid-appointment request for additional Privileges shall be subject to New Professional Practice Evaluation as provided in Medical Staff Policy.

3.4 Emergency Privileges

In case of emergency, any Member attending the patient, to the degree permitted by his license and regardless of service or Staff category, shall be expected to do and to be assisted by Hospital personnel in doing everything possible to save the life of the patient, including the calling of such consultation as may be necessary and available. For the purpose of this section, an "emergency" is defined as a condition in which serious, permanent harm may result to the patient or as a condition in which the life of the patient is in immediate danger and any undue delay in administering treatment might add to that danger.

3.5 Temporary Privileges

A Practitioner may be granted temporary Privileges by the Division President, with the concurrence of the Chief of Staff. Practitioners who hold temporary Privileges are not Members. Temporary Privileges shall be granted only (a) when the information available reasonably supports a favorable determination regarding the requesting Practitioner's qualifications, competence and judgment to exercise the Privileges requested, (b) after the Practitioner has provided evidence of professional liability insurance in an amount consistent with Medical Staff Policy, and (c) after the Practitioner's license has been verified. Temporary Privileges must be for a specified time period, consistent with the time limits stated in this Section.

3.5.1 Types of Temporary Privileges. Temporary Privileges may be granted in the following circumstances:

3.5.1.1 Pendency of Application. After a complete application for Staff appointment has been approved by the Credentials Committee and a request for specific temporary Privileges has been received from the applicant, the applicant may be granted temporary Privileges during the pendency of the application or for up to 120 days, whichever is shorter.

3.5.1.2 Temporary Consulting Privileges. Upon the request of a Member, temporary Privileges may be granted to a qualified Practitioner who is not a Member and has not applied for Medical Staff membership when the special skills of that Practitioner would be beneficial to specific Hospital patient(s) who is/are under the care of the requesting Member and are not readily available from any other Member. Temporary consulting Privileges automatically terminate at the end of the consultation or care provided to the named patient(s).

3.5.1.3 Locum Tenens. Upon receipt of a written request from an Active Member, an appropriately licensed Practitioner who is serving as locum tenens for the requesting Member while the requesting Member is absent from his practice may, without applying for Medical Staff membership, be granted temporary Privileges for up to one hundred twenty (120) days during the requesting Member's absence and limited to services to the requesting Member's patients.

3.5.2 Supervision. Practitioners granted temporary Privileges shall be subject to the supervision of the Chief of the Department to which assigned and shall comply with these Bylaws and other documents that apply to Members. Temporary Privileges may be summarily revoked by the Division President, the Department Chief, or the Chief of Staff. Denial or termination of temporary Privileges does not trigger hearing or appeal rights.

3.6 Disaster Privileges

In the event of a disaster requiring activation of the emergency management plan and exceeding the ability of the professional resources of the Hospital to meet immediate patient needs, the Chief of Staff, in consultation with the Hospital Incident Commander (as defined in the Hospital's emergency management plan), will first consider utilizing Practitioners and Allied Health Professionals with Privileges at any Beaumont Healthcare System hospital, since primary source verification will have already been completed for these Practitioners and AHPs. The Chief of Staff, in consultation with the Hospital Incident Commander, may then implement a modified credentialing and privileging process for eligible volunteer Practitioners and/or AHPs present and able to assist in the care of patients and grant temporary disaster Privileges to qualified volunteers, provided any grant of temporary disaster Privileges must consistent with Medical Staff Policy.

The following procedures apply only to Active, Ambulatory, Consulting, Affiliate and Emeritus Staff Members. Medical Staff membership and prerogatives for Honorary Medical Staff Members are subject to the discretion of the MEC and the Board, without hearing or appeal.

6.2 Non-Summary Procedure:

6.2.1 The MSPRC investigates instances in which a Staff Member is suspected of violating the Bylaws, Rules and Regulations of the Medical Staff or of the Hospital, or rendering deficient care. If, after completing a review in accordance with Medical Staff Policy, the MSPRC issues a written report recommending that a Medical Staff Member's appointment be rescinded or his Privileges be reduced, restricted or suspended, the MSPRC's report shall be delivered to the MEC.

6.2.2 After timely review of the MSPRC's report, the MEC shall make a preliminary determination. If the determination could result in the reduction, restriction or suspension of Clinical Privileges or in rescission of the Staff Member's appointment, the affected Member will be notified in writing and granted an opportunity to appear before the MEC at its next regular session to discuss, explain or refute the charges, but this appearance will in no way constitute a hearing. If the Staff Member appears, such appearance will be completed before final action is taken by the MEC. A record of such an appearance will be kept.

The MEC's response to the MSPRC report may include, without limitation, issuing a letter of warning, admonition or reprimand; imposing terms of probation, consultation requirements or other conditions on the Staff Member's appointment, which do not materially restrict exercise of Privileges; or recommending to the Board reduction, restriction or suspension of Clinical Privileges or rescission of Medical Staff membership. The Chief of Staff shall inform the Board of the nature of the MSPRC's report and the MEC's action.

6.2.4 Any recommendation by the MEC for reduction, restriction or suspension of Clinical Privileges or for rescission of Medical Staff membership, or a preliminary decision by the Board to take one of those actions, shall entitle the Staff Member to request a hearing and appellate review to the extent provided in these Bylaws.

The Chief of Staff shall promptly notify the suspended Member of the suspension.

6.3.2 Interim Nature. Summary action shall be deemed an interim precautionary step in a professional review activity until it has been reviewed by the MEC pursuant to Section 6.3.3. Summary action is a non-disciplinary measure taken to protect an individual against potential harm, pending review of the matter by the MEC.

6.3.3 Review of Summary Action. The MSPRC shall immediately investigate the circumstances that led to the suspension, including offering the suspended Member an opportunity to meet with the MSPRC or its representative, which will in no way constitute a hearing. The MSPRC shall report to the MEC in writing its recommendations regarding the suspension and regarding the Member's future status, within the later of fourteen days from the suspension or the next regular meeting of the MEC following imposition of the suspension. The MEC shall review the MSPRC's report at its next regular meeting following receipt of the report. Following review of the MSPRC's report, the MEC may continue the suspension, lift a suspension imposed by any party other than the Board, or recommend that the Board lift a Board-imposed suspension. The MEC shall also in all cases recommend to the Board the future status of the Member's Medical Staff membership and Privileges. The suspended Member shall be entitled to hearing and appeal rights to the extent provided in the Bylaws.

6.3.4 Patient Care. The Chief of Staff, the Chief of the Department and the Administration shall make adequate provision for the care of any patient in the Hospital under the care of the suspended Member.
