

Corewell Health East owned mobile devices will soon be updated

In the coming weeks, Digital Services will visit your site to migrate corporate-owned mobile devices, such as iPhones, iPads and Android tablets, to the Corewell Health environment. The purpose is to move these devices from our legacy Beaumont mobile device management (MDM) system to our new Corewell Health MDM. If these devices are not migrated, they will not receive updates and eventually become inoperable.

[Please see the schedule](#) for specific site dates and mark your calendar to ensure your corporate-owned devices are accounted for and available for the arriving technician.

If any questions, please contact the Service Desk at 888-481-2448 or via the IT Support desktop icon.
