

We are thrilled to share with you that the System Integration Management Office, Integration Advisory Council and Corewell Health Senior Leadership Team support the creation of a Corewell Health Value Analysis program. Integrating two Value Analysis teams, realigning the organizational model/service line coverage, large-scale clinician education and establishing new, system-wide processes has been a significant undertaking as we create this new, integrated program and process. With this integrated Value Analysis process, there are a few announcements the Value Analysis team would like to share:

The MedApproved platform will no longer be used by Corewell Health for product request submissions. All product requests will need to be submitted through the Lumere platform for Value Analysis review. Due to this change, suppliers will no longer submit any part of a product request at Corewell Health. Corewell Health West EMIs, Corewell Health East OR leadership teams and nursing leadership may submit a product request on behalf of a physician. These teams have received education on the Lumere platform and how to submit a product request for review.

These teams will also assist with Patient Specific Requests, formerly known as one time approval requests, in Lumere. Medapproved and the One-Time Approval platform will no longer be used for these requests. PSR requests will be reviewed by the Value Analysis team before the VAT Triad leaders make a decision for product use. **PSR requests must be submitted five days prior to scheduled use of the product for a surgery or procedure.** For inquiries on submitting a PSR with this process, please reach out to Corewell Health East OR leadership teams or Corewell Health West EMIs for assistance.

For all questions or concerns, please [contact Amy Bertotti](#), director, Value Analysis, or your service line Value Analysis Program specialist listed below:

Cardiovascular, CV OR	Andrea Rosendahl
Radiology/Lab	Rachel Sikkenga
Ortho	Laura Mato
Neuro	Linda Richards
Clinical Products/General Products	Melissa Tamminga Lindsay Vronko
Surgical Specialties	Tara Klein Wendy Teusink

Thank you for partnering with Corewell Health Value Analysis as we make this significant change to better support our clinical teams, our communities and the patients we all serve.
