

Physician Preference Guide

How To

Login, Add & Edit Admitting and
Specialty Preferences

March 2021

Physician Preference Guide

The Physician Preference Guide is a self-service tool that allows physicians to manage and update their admission and specialty preferences. As of 2021 physicians are responsible for updating and maintaining their own information in the PPG.

Each hospital will identify a local admin and physician lead to help operationalize the PPG. We strongly encourage that individual physicians populate and manage their PPG preferences but also understand the need for local autonomy in how medical staff offices and administration supports physicians.

If a physician is unable to login and update their preferences, they may contact a site admin or physician lead for assistance. The admin's ability to edit preferences for physicians is on a case-by-case basis and determined locally by each site. Local admins must keep documentation that a request for a change was made by a physician.

[Sign in >](#)

This is the PPG homepage. Click Sign in to enter your Beaumont credentials if prompted.

If you are already signed into another program using your credentials, you will not have to enter

The PPG keeps an audit trail of every change that was made to a profile, including who made the change and the date and time it was last updated.

Helpful Tips

- If there are no preferences shown for a physician, that physician has not set their own preferences
- Registration and Physician Liaisons cannot update preferences for anyone.
- Additional training videos and tip sheets are available on providers.Beaumont.org
- For errors or issues with the program, please submit a ticket with the Help Desk

For more information, visit
providers.Beaumont.org or
contact a site admin
